

# Are You Connecting To The Digital Age Or The Stone Age?

*Because The Necessities Of Modern Life Are Electronic*

## The Intelligent Home Connected By GE

---

*Just as your new home has a foundation upon which everything is built, ConnectionCenter is the electronic foundation for all the technologies of today and tomorrow. It's the home network system that connects you to the digital age and the lifestyle that goes with it.*

**ConnectionCenter** integrates all your needs with one simple, economical solution. And it delivers electronic technology to every room in the house. Whatever electronic capability you have...or whatever you want to add in the future...ConnectionCenter delivers it. This can include:

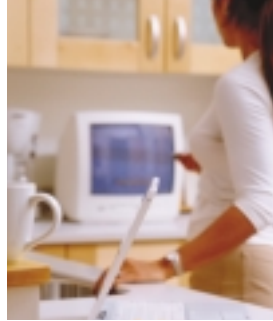

- High-speed Internet access
- High-quality digital and cable television in any room
- Home theater
- Networking of computers, printers, fax and scanners
- Digital quality music throughout your home
- Advanced telephone systems
- Computer entertainment and gaming
- Home security

## Your One And Only Chance To Get Everything Under Control

Once a home is built, it's too late. The only way to enjoy current and future technology is to build the connection capability into your home today. So as a new home builder, you have a tremendous advantage over existing home owners.

With ConnectionCenter, you wire your home once, and it's ready to accept any technology. There's no expensive rewiring every time you want to add a new electronic component...or any time a new technology comes along.

## Your Whole House Is An Entertainment Center

Whether you have cable or satellite, you can enjoy your favorite TV programs and movies anywhere in your home. ConnectionCenter allows a video outlet anywhere—from the home theater in your living room to TVs in your recreation room or bedrooms.

It makes an audible difference too. As you walk from room to room, you can enjoy your favorite music with the highest sound quality. Whether you're listening to CDs or radio, ConnectionCenter can distribute audio signals anywhere.

## Your Surfboard To The Internet

High-speed connections are a breeze. And since you can network computers easily, any room in your house is an instant resource.

Email friends, get the latest news and information, shop online, research homework projects and much more – all without tying up phone lines or waiting for Internet connections.

## The Keys To Your Home Office

ConnectionCenter makes easy work of creating the most advanced home office. You're wired into your career needs with computer, fax, modem and Internet connections. Add a telephone system – with any advanced telecommunications capabilities you need – and you're in business.

## A Watchtower Of Security

Get protected as well as connected. ConnectionCenter supports advanced security systems that provide 24-hour watch over your family, home and possessions. Protect against burglary, fire, carbon monoxide—even furnace failure.

You can also set up a closed-circuit TV system to monitor a child's room or see who's at the front door. You'll enjoy peace of mind, knowing your family is safe and secure.

Block out intruders.

Escape fire in time.

Guard against carbon monoxide.

Warn of furnace failure and basement flooding.

## The Value Of Your Home Goes Up Before The Walls Do

Technological capability is a home improvement feature that adds significant value in two ways:

### Increase Your Home's Value As You Live In It

- Enhance your family's lifestyle.
- Expand your ability to work from home, safeguard your family and enjoy entertainment.

### Increase Your Home's Value When You Sell It

- Protect the future value of your real estate event.
- Get a higher price and a quicker sale.

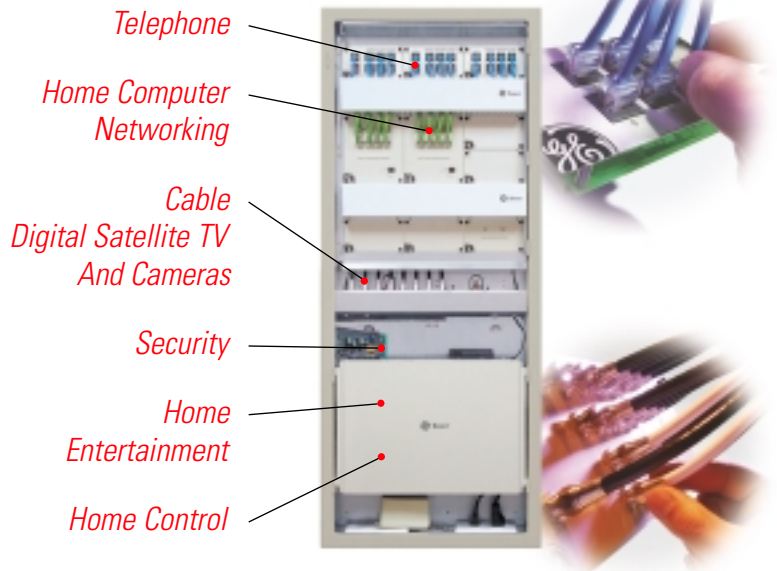

ConnectionCenter is an attractive feature that will become even more popular as the years go on. Just as it's unimaginable to have a home today without central air or other amenities, it will be unthinkable tomorrow to have a home without advanced connections. It's a huge selling point, and it adds big dollars to the value of your home.

## Simple As ABC. Reliable As GE.

All of the advanced electronics in your home will work in concert with one solution that's easy to use—and very easy to appreciate. And it never goes out of date because it's ready for any technology the future may bring.

It's brought to you by the company you've always depended on for the finest products. The name GE is your assurance of quality and reliability.

Now is the time to wire your home for today and tomorrow. Enhance your home and lifestyle with the electronic sophistication of ConnectionCenter. You'll be connected to the Digital Age. And you won't want to keep up with the Joneses. Because the Joneses are probably connected to the Stone Age.
